

Curtlen Aumiller

Software Engineer

Arvada, CO | 303-549-0612 | Curtlen88@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

As a Software Engineer with a background in construction, I bring a unique set of skills to my work. My coachable attitude, collaborative work experience, attention to detail, and strong time management skills are essential in both industries. I apply these qualities to deliver high-quality code, drawing on my experience in construction to approach coding with precision and care. For example, my attention to detail helps me catch bugs and errors, resulting in more reliable and stable software. Additionally, my experience in construction has taught me the importance of planning and collaboration, which I apply in my work to ensure timely delivery of projects that meet or exceed customer expectations.

SKILLS

Problem-Solving, Analytical Thinking, Coding and Programming, Agile Workflow, Adaptability to New Technologies, Time Management, Ability to Work Under Pressure, Creativity and Innovation

SOFTWARE

HTML, CSS, JavaScript, React, Next.js, Python, Node, Express, Sequelize, Postgres, SQL, MongoDB, GitHub, Heroku
